Kastela, 2nd August 2012

Dear colleagues,

We would like to take this opportunity and express our sincere congratulations for your big anniversary. To celebrate 45 years of involvement in aviation safety means very serious and scientific approach to this significant matter. To be involved in application of different preventive activities and measures of protection of aircrafts against birds and other wildlife strikes proves your intention to protect human beings and their property on the one hand, and to improve flight safety in general on the other.

We were extremely proud to introduce some of your colleagues at IBSC Conference in Stavanger, last June. The knowledge and experience of your members contributed significantly to opening of new views and insights into wildlife issues to all who participated in the Conference, and particularly to representatives of airport operators, aircraft operators, Air Traffic Controls, insurers, reinsurers and other government bodies.

Based on the stated, on behalf of all Bird Strike Committee Croatia members and myself, I would like to wish all of you all the best and a lot of success in future achievements in the field of increase of safety and security of aircrafts from bird and other wildlife strikes.

Sincerely yours,

Chairman

Ante Matijaca
